

Oil Hose

SOH

Description

- Black, smooth rubber inner lining
- Reinforcement: steel wire braid
- Outer lining made from black textile fabric
- Temperature resistance: -40°C to +150°C

Technical Data

85	3 3/8	85	99	15	15	218	80	1160	500	2800	

Application

The high-performance oil hose is ideally suited for the secure transport of lubricating oils and dry air or air that contains oil, particularly at high temperatures. Resistant to ozone and UV radiation.
